-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/12/08 has been entered.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4, 6, 11, and 13-14 are rejected under 35 U.S.C. 103(a) as obvious over Malin (US 6,044,621) in view of English (US 5,417,035).

Malin et al. disclose a method and apparatus for sealing flanges of reclosable fastener 16, 18 to a substrate comprising presenting lengths of a fastener transversely to a substrate; locating the lengths by attaching flange portions 30 to the substrate by heat sealing devices 28 (see figures 1-8); leaving body portions 18, 16 unattached/free for movement relative to the substrate; and subsequently passing the fastener and substrate to a sealer; see figure 8. Malin does not disclose the final sealing procedure of the body to the fastener is between displacing sealing jaws however English uses

seal bars 100 and 102 with blade 106 for performing a sealing/cutting operation as is conventionally known in the art. It would have been obvious to one of ordinary skill in the art at the time of the invention to include the sealing jaws as taught by English in the invention to Malin et al for sealing the bag portions (body to substrate) as shown in figure 8.

### ***Response to Arguments***

4. Applicant's arguments filed 12/12/08 have been fully considered but they are not persuasive. The body member comprises a flexible plastic construction as is well known in the art. The body member is considered free for movement relative to the web as claimed as the flange portion(s) is adhered to the web not the body member.

### ***Conclusion***

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher R. Harmon whose telephone number is (571) 272-4461. The examiner can normally be reached on Monday-Friday from 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on (571) 272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
